## Adobe Bridge CC 2020 10.0.3.138 Crack

I am using Windows 10 Pro (1909.18363.535) and using Adobe Bridge CC 2020 (10.0.1.126). . Everything works in my environment, but I can't download and install on my platform. I can see the application as: "Adobe Bridge CC 2020". but when i try to run it i get "The application failed to start because its version does not match the Windows Installer version installed on this computer" I've downloaded all the necessary files to install the application, and as far as I can tell, all my plugins are installed correctly (as I can see them in my viewer).
